## INSTRUCTIONS - REPORT OF DAIRY OPERATIONS

Note: If any information pre-printed on this form is incorrect, please make the needed corrections.  
For that information not already pre-printed on this form, please follow the directions below.

Enter Facility Name, Contact Person Name, Contact Address and Phone Number if not already shown.

### PART 1 - WATER USED FOR DAIRY OPERATIONS

Indicate the quantity of water, in acre-feet, used in normal dairy operations, including water used for animal drinking, udder washing, barn cleanup, animal cooling, and dust control. List all right numbers or entity (e.g. an Irrigation District, Municipal Provider or AWCD) supplying water. Please specify Other Sources. Additional sheets may be submitted if needed.

### PART 2 - ANIMAL POPULATION

Please indicate the number of lactating cows and non-lactating animals. Add all months of lactating cows together then divide that by 12, record that total in the annual total box for lactating cows. Add all months of non-lactating animals together: divide by 12 and record total in the average monthly total box for non-lactating animals. Please notify your AMA if you have an average of 99 lactating cows or less.

### PART 3 - DELIVERIES FOR OTHER USES

Meter all deliveries of water to any uses, other than dairy operations, from all wells serving the dairy.

### PART 4 - WASTEWATER PRODUCTION AND REUSE

Provide the metered amount of wastewater delivered and beneficially used by any holder of a grandfathered groundwater right other than the dairy operation itself. All wastewater deliveries must be metered by an approved measuring device in accordance with the Department's measuring device rules, A.A.C. R12-15-901, et seq. Indicate the Permit/Right/Facility Number that is beneficially using the wastewater.

\*\*\* Water use records should be maintained for a minimum of three (3) years.

Please contact the Annual Reports & Planning Section if you need assistance completing this form.
